Lubricated Rotary Screw Air Compressors
Constant Speed and Variable Speed Drives
30–45 kW | 40–60 hp
SULLAIR LEADERSHIP
Since 1965, Sullair has been recognized worldwide as an innovator and leader in rotary screw compression and vacuum technology. Sullair designs and manufactures its own rotors and air end assemblies. The legendary rotary screw design sets the industry standard and delivers the quality and reliability you expect from a leader.

SULLAIR TECHNOLOGY
Using the most modern technologies, equipment and advanced manufacturing techniques, Sullair designs, manufactures, assembles, and tests the most innovative compressed air and vacuum products in the industry. Sullair products are known around the world for their universally applicable design, outstanding craftsmanship and superior quality.

SULLAIR COMMITMENT TO INNOVATION
Underlying Sullair leadership is a dedication to excellence and a commitment to innovation. We are constantly exploring new ideas and seeking new ways to meet industry needs for increasingly energy efficient compressed air and vacuum solutions.

Sullair is A Hitachi Group Company

All rotors are engineered and machined in the USA.
Sullair S-energy® air compressors feature the robust, globally recognized air end with the highly efficient asymmetric profile and tapered roller bearings — backed by the Sullair comprehensive 10-year Diamond Warranty.

S-energy 40-60 hp compressors include:

- 3G enclosure design with lift-off panels for easy maintenance
- Improved air/oil separator design
- Oversized oil/aftercooler with higher cooling capacities (46°C/115°F)
- Efficient centrifugal fan and housing
- WS Controller™ with enhanced functionality
- Easy access oil sampling valve
- Factory filled with 10,000-hour Genuine Sullube®

S-energy compressors can significantly reduce operating and energy costs over the entire compressor life cycle:

- Proven air end with the low-restriction inlet valve
- Premium efficient drive motor design
- Low-pressure-drop air-fluid separation system to prevent energy loss

Sullair delivers cost savings for the life of the product. Improved air filtration translates into:

- Extended separator life
- Improved fluid filter life
- Less lubricant contamination
RELIABLE PERFORMANCE HELPS ENSURE MAXIMUM UPTIME — AND MAXIMUM CONFIDENCE.

SULLAIR DURABILITY
The legendary Sullair air end is built to last.

EFFICIENCY
S-energy compressors are designed for high performance and lower energy usage.

SERVICEABILITY
The S-energy package has been designed to help make service quick and easy.

STANDARD FEATURES

- Legendary air end
- Low-restriction inlet valve
- Low carryover air/oil separator design
- High efficiency drive and fan motor
- Integral compressor sequencing
- NEMA 4 Wye-Delta starter cabinet
- TEFC Motor
- WS microprocessor
- Compact footprint
- Genuine Sullube® 10,000-hour, non-varnishing, biodegradable compressor fluid
- Optimalair® air filter providing 10 times better filtration than other filters
QUIET DESIGN
- Air end, motor, and receiver tank mounted on rubber isolators
- Insulated intake and exhaust louvers
- Low-noise fan

OPTIONS
- Choice of air- or water-cooled
- Cold-weather package
- Weather hood
- EES® heat recovery system
- VSD starter
- Magnetic air inlet filters (standard on VSD)
- High ambient package (55°C, 131°F)
- PristineFG™ food grade compressor fluid
- Oil containment pan (ships loose)
- AirLinx® Remote Connectivity: Provides fast and easy remote monitoring of compressor functions from any connected device: computer, tablet or phone
SULLAIR OPTIMALAIR® AIR FILTER
- Provides industry’s finest inlet filtration
- Keeps fluid clean and extends internal component life
- Reduced pressure drop during operating life results in energy savings
- 99.95%+ overall efficiency/0.4 micron

VARIABLE SPEED DRIVE
- Robust, reliable and compact
- Maximum efficiency
- Operating consistency

AFTERCOOLER/ OIL COOLER
- Oversized two-piece design helps eliminate thermal shock
- Integrated moisture separator
- Rated at 46°C/115°F
**SULLAIR OPTIMIZER™ AIR-FLUID SEPARATOR**
- High-efficiency media
- Low pressure drop for reduced power consumption
- Less than 1.5 ppm carryover to reduce make-up fluid

**DRIVE COUPLING ELEMENT**
- Easy access allows change without disturbing hubs
- Designed for air end/motor protection

**LEGENDARY SULLAIR AIR END**
- Asymmetrical rotors made in the USA
- Durable
- Proven bearing design
- Backed by 10-year Diamond Warranty

**OIL SAMPLING VALVE**
- Easy push button, metered valve allows for sampling while machine is in operation
- Simplifies maintaining your Diamond Warranty
YOUR COMPRESSED AIR SYSTEM CAN IMPROVE YOUR BOTTOM LINE:

35% energy savings in the first five years
In just five years, the electrical power cost to operate a standard compressor can be more than six times greater than its purchase price.

Total compressor flexibility
Sullair VSD compressors provide flexibility to vary both capacity and pressure. This allows you to "grow" your air system without adding more compressors.

Soft start is standard with unlimited starts and stops
• No need for Wye-Delta and other soft starters
• No need to control the number of hot or cold starts
• Unlimited starts and stops save electrical costs
• Avoids high electrical current at start-up

FOR MAXIMUM ENERGY EFFICIENCY AND OPERATING CONSISTENCY

Sullair Compressors with VSD Provide:
• Excellent energy savings
• Relief from potential peak demand charges
• Possible utility company rebates
• Stable system pressure
• Consistent product quality
• Reduced system air leaks
• Reduced storage requirements
• Flexibility for future growth
• Lowest life-cycle cost
• DC link choke

The chart above is a representation of nominal control systems for generic comparative purposes. A detailed and accurate comparison of specific compressor models is available from your authorized distributor.
10-YEAR DIAMOND WARRANTY
Confirming the Sullair rugged design and commitment to customer satisfaction, all new lubricated stationary air compressors (with discharge pressures up to 150 psig) include comprehensive extended warranty coverage:

10 years air end protection

5 years coverage on:
- Main motor
- Fan motor
- Aftercooler
- Oil cooler
- Separator vessel
- Variable speed drive (if equipped)

Your Diamond Decade Starts Today

CRITICAL OPERATIONS INFORMATION AT YOUR FINGERTIPS
The WS Controller is a user-friendly, reliable and easy-to-read microprocessor. This controller monitors all functions and parameters to ensure your compressor is operating properly and efficiently.

WS Controller with enhanced functions include:
- Easy to read backlit display
- Simple user interface
- Multiple language display
- Web-enabled communication and control
- Machine sequencing of up to 16 Sullair compressors without any additional hardware
- Local or remote adjustable parameters
- Powerful WSPC Windows-based program provides complete monitoring and control of WS controlled air compressors
- Direct connections for ModBus RTU and Ethernet
- Supports wireless communication
- Second stop delay - minimizes unloaded energy consumption while assuring long motor life
- Built-in web screen displays of compressor operation, control, and VSD usage

To reduce fluid disposal costs, S-energy® compressors are factory-filled with biodegradable Genuine Sullube® 10,000-hour fluid.

- Protects and cleans (no varnish)
- Controls operating temperatures
- Optimal viscosity
- Environmentally friendly
- Reduces fluid loss
- High flash point (505°F/263°C)
With our expertise in analyzing, managing and controlling compressed air, Sullair offers total compressed air solutions that help you reduce energy costs and improve productivity.

- Plant air audits
- Energy efficient products
- Compressed air system controls
- Equipment to monitor and manage air systems
- Air distribution products
- After-purchase support

Plus a full complement of OEM parts and lubricants to help keep your compressors running optimally.

Each component of the system is carefully matched for capacity and pressure to provide maximum performance and energy efficiency. A total Sullair system provides you with an air quality guarantee.
